

AITRANSIT

C A R G O

GUIDE BOOK

Admin

Oversight of operations, money, people and prices

THIS DESK IS RESPONSIBLE FOR

- Every figure the business reports can be traced back to the rows underneath it
- Who may do what, and the record of what they did
- Prices, exchange rates and company settings

admin@aitransit.co.zm · Department

Contents

01 The dashboard

The whole business on one screen — cargo, revenue, collections and what is overdue.

02 Admin home

Everything that governs how the system behaves, in one place.

03 Users and permissions

Who can sign in, what department they belong to, and therefore what they can see.

04 Prices and categories

The rate book and the cargo catalogue. What the business charges, and for what.

05 Reconciliation

Whether what the books say matches what the accounts actually hold.

06 Reports and profit & loss

What each batch earned, what it cost, and what the business made.

07 The activity log

Who did what, and when. Nothing in this system happens anonymously.

08 Company settings

Addresses, contacts, storage policy and the details that appear on every invoice.

Before you start

Signing in

Everyone at AITRANSIT signs in at the same address with their own email and password. The system knows your department and opens your own screens — you never choose a role.

Your login **admin@aitransit.co.zm**

ON EVERY SCREEN

The sidebar on the left is your department's menu — it only ever shows what your desk is allowed to open. The search box at the top accepts a tracking number, a customer, a phone number or a QR scan. Your name is at the bottom of the sidebar, with the language switch and the light/dark switch beside it.

GOOD TO KNOW

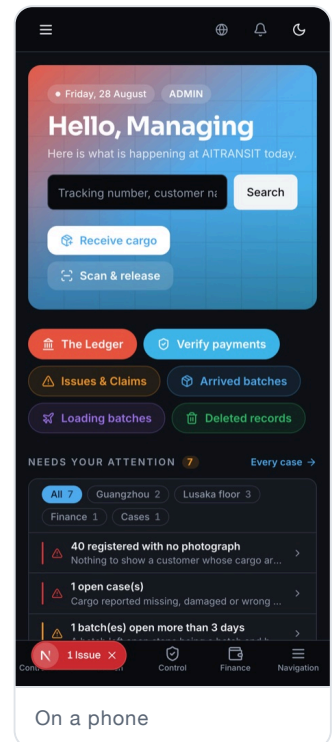

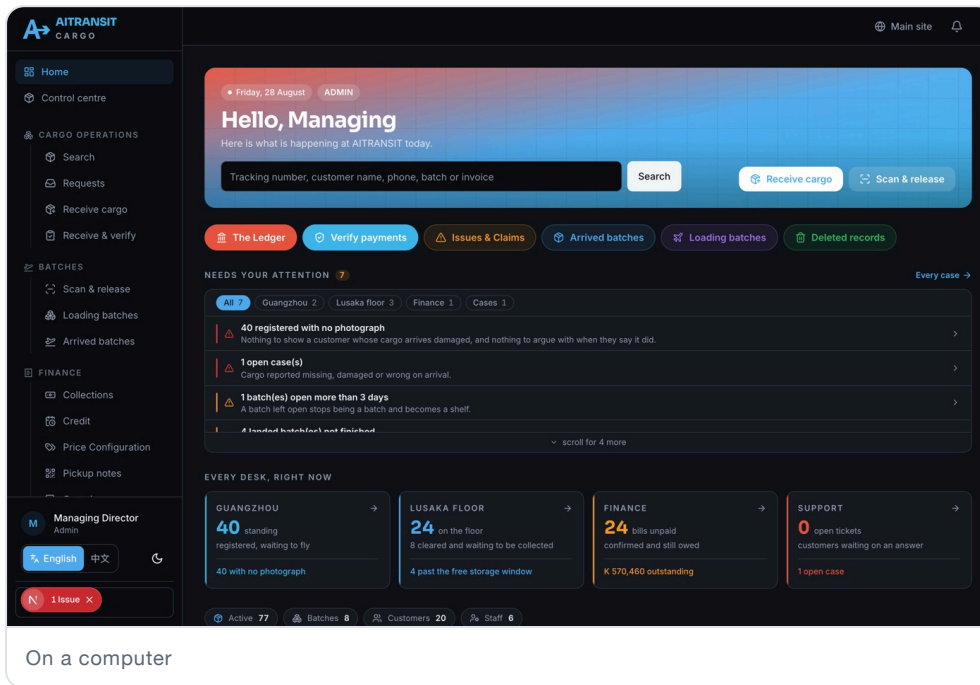

Every screen in this system is available in English and 中文. The switch is at the bottom of the sidebar, beside your name.

IF SOMETHING IS WRONG

Do not work around it. A wrong record is harder to fix than a missing one — tell your supervisor, or raise it under Issues & Claims, and let the system record what happened.

The dashboard

The whole business on one screen — cargo, revenue, collections and what is overdue.

1 The top row is today: cargo registered, billed, collected.

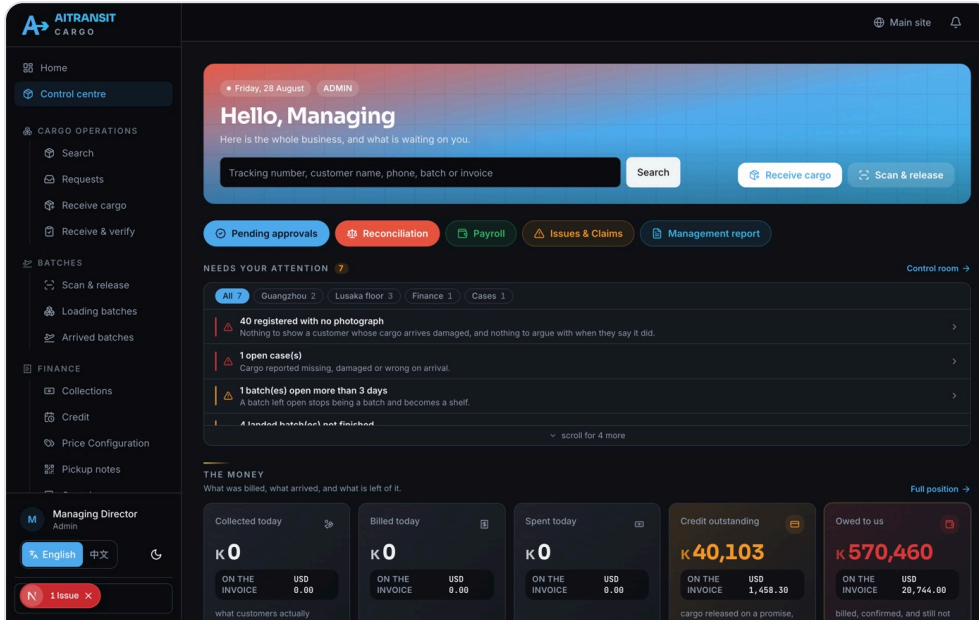

2 “Collected against billed” is the number to watch.

Billing that is not collected is not revenue. A month can bill well and still run out of cash.

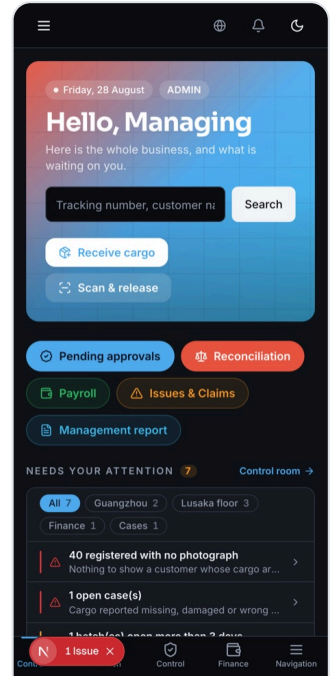

3 The charts below cover the month; the batch table shows profit for each flight.

Admin home

Everything that governs how the system behaves, in one place.

On a computer

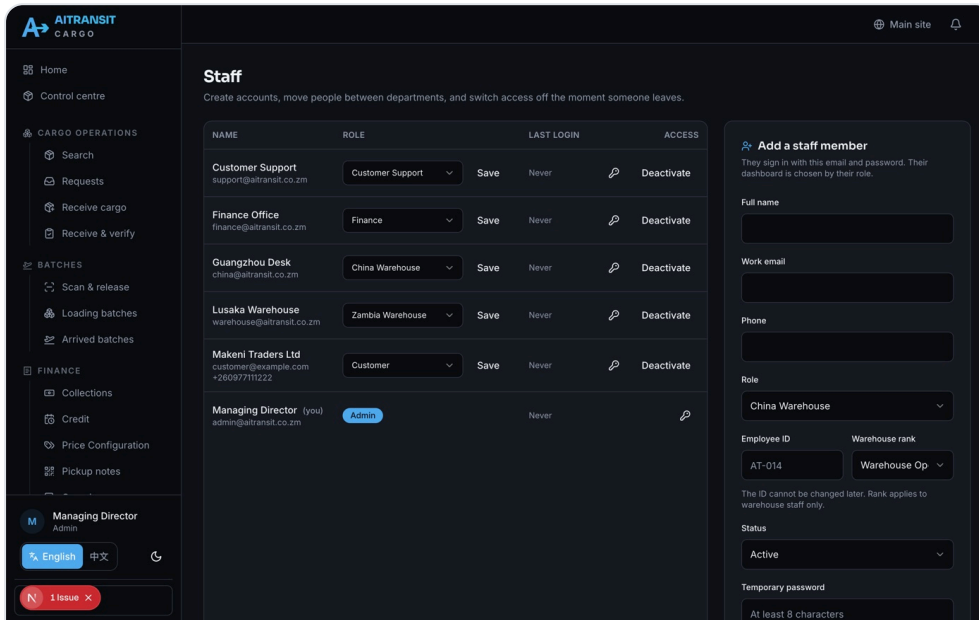

On a phone

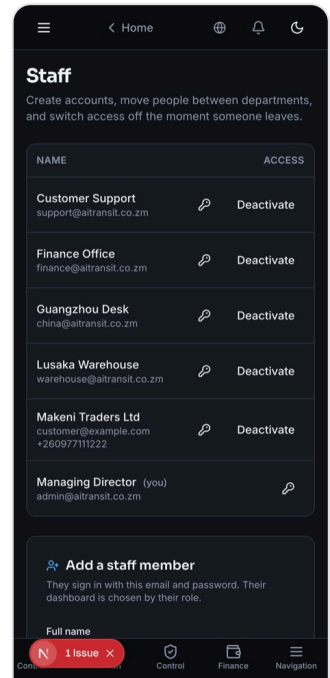

- 1 The attention panel lists what is going wrong right now.
- 2 “Accounts to check” is the reconciliation queue.
These are accounts whose recorded balance has not been checked against the real one lately.
- 3 The admin actions are shortcuts to users, prices, reports and settings.

Users and permissions

Who can sign in, what department they belong to, and therefore what they can see.

On a computer

On a phone

- 1 Give a person the department they actually work in. Permissions follow the department.
- 2 Deactivate somebody who has left the same day they leave.
- 3 Set an employee ID, and a rank for warehouse staff.

Rank applies to warehouse staff only. It separates the person doing the work from the person signing it off.

- 4 Reset a password rather than sharing one.

Every action in the activity log is stamped with whoever was signed in. A shared login makes that log worthless.

BE CAREFUL

There is no Manager role in AITRANSIT. Everything the second chair used to hold sits with Admin, so there is exactly one desk that answers for the figures.

Prices and categories

The rate book and the cargo catalogue. What the business charges, and for what.

Pricing & configuration

Every figure this business quotes comes from this page. Change it here and the whole system follows — cargo, invoices, tracking and reports.

Exchange rate
1 USD = 27.5 ZMW
 Set 11 hours ago

Active categories
3
 of 3 priced

Products configured
46
 All priced

Last price change
1 hour ago
 28 Aug 2026, 09:06

Rate last set by
 —
 27 Aug 2026, 23:50

Published prices
 Every quote in the system comes from this table. Nothing is hardcoded.

All categories
 Show withdrawn

APPLIES TO	TIER	PRICE	FLOOR	SINCE	ACT
AirPods Special goods Per item, any weight.	Any weight	<u>USD 10.00 per item</u>	min 1 kg	28 Aug 2026	× Withdrawn
Documents Special goods Per item, any weight.	Any weight	<u>USD 40.00 per item</u>	min 1 kg	28 Aug 2026	× Withdrawn
Camera Special goods Per item, any weight.	Any weight	<u>USD 45.00 per item</u>	min 1 kg	28 Aug 2026	× Withdrawn
Smart Watch Special goods Per item, any weight.	Any weight	<u>USD 10.00 per item</u>	min 1 kg	28 Aug 2026	× Withdrawn

Exchange rate
 Applied to every invoice raised from now on. Invoices already issued keep the rate they were raised at.

New rate — kwacha to one US dollar

Why (optional)

Publish rate

PREVIOUS RATES
 27 — 11 hours ago

Publish a price
 Takes effect on the next quote. Invoices already raised keep theirs.

+ New price

On a computer

1 This opens the Finance rate book. It is the same page and the same prices.

2 Change a category rate to change what every future quote charges.

3 Use a product rule when one item needs its own price.

A product rule beats the category rate for that item and leaves everything else alone.

Reconciliation

Whether what the books say matches what the accounts actually hold.

Reconciliation
Review and reconcile what Finance recorded against the money the accounts actually hold.

Reconciliation progress
0 of 8 agreed **0%**

Pending **8** 100% of the pile
Mismatch **0** 0% of the pile
Under review **0** 0% of the pile
Reconciled **0** 0% of the pile

Solwezi Electronics **+K 14,979.25**
GL-2026-000008 Pending USD 544.7 on the invoice

TYPE	DATE	ACCOUNT	RECORDED AT
Freight payment	26 Aug 2026	Mobile money (ZMW)	27 Aug 2026, 23:50
METHOD	REFERENCE	RECEIPT	INVOICE
Mobile money	MPA2022814	RCT-2026-000008	INV-2026-000011
BATCH BATCH-2026-002			
Payment for INV-2026-000011			
Mobile money (ZMW)		SYSTEM K 184,237.63	ACTUAL never checked

No document attached. Ask for it before agreeing this one.

On a computer

- 1 Pick the account and the date you are checking.
- 2 Enter the real balance — from the bank statement, or from counting the tin.
- 3 The page shows whether it agrees, and by how much it is apart.
- 4 Record the check either way.

A check that found a difference is worth more than no check at all — it dates the problem.

Reports and profit & loss

What each batch earned, what it cost, and what the business made.

Management report

What moved, what it earned, and how much of it is still owed.

Today This week **This month** This quarter This year

COVERING 01/08/2026 — 31/08/2026

WHAT MOVED

- 80 Cargo registered
- 4 Batches flown
- 3 Delivered

WHAT IT EARNED

Billed 35 confirmed bills	nothing billed in the period before K 931,178.88
Of that, cash Paid at the counter	K 891,075.63
Of that, credit Released against a promise	K 40,103.25
Operating costs	nothing spent in the period before K 0.00
Profit 100% margin	no profit in the period before K 931,178.88

WHAT IS STILL OWED

K 40,103.25 Billed on credit	K 0.00 Collected since	K 40,103.25 Still owed	K 0.00 Overdue
--	----------------------------------	----------------------------------	--------------------------

0% of the credit given in this period has come back in.

EVERY REPORT YOU CAN RUN

On a computer

- 1 Choose the report, then the period it covers.
- 2 Read it on screen, or download it to Excel.
- 3 Print from the page when the report needs a signature.

GOOD TO KNOW

Sample records are prefixed AT-DEMO- and DEMO-AIT-. Exclude them before you quote a figure to anybody outside the company.

The activity log

Who did what, and when. Nothing in this system happens anonymously.

On a computer

- 1 Filter by record type — cargo, invoice, payment, batch, pickup note.
- 2 Or search a person's name to see everything one member of staff did.
- 3 Nothing here can be edited or deleted.

That is the whole point of the log. It is the record you reach for when two people remember a day differently.

Company settings

Addresses, contacts, storage policy and the details that appear on every invoice.

Company settings

The accounts customers pay into, the offices they collect from, and how they reach you. Changed here, changed everywhere at once.

These appear on invoices, PDFs, WhatsApp messages and the public site simultaneously. Invoices already raised are untouched — each one keeps the accounts it was issued with, so an old bill still shows the numbers the customer was actually given.

Cargo category name

Zambia office

On a phone

1 Set the company address and phone numbers.

These print on every invoice and every pickup note, and they show on the public website.

2 Add the accounts customers can pay into — bank, Airtel Money, MTN.

Write the label exactly as the customer should read it, so nobody has to guess what kind of number it is.

3 Name the cargo categories the way your staff say them out loud.

4 Save. The change takes effect on the next document raised.
